Concept

The Fortis logo is created using **two letter “F” forms** taken from the brand name. Each F is designed as an arrow, symbolizing direction, progress, and business growth.

The arrows are placed in opposite directions to represent the **ups and downs** of a company, showing how Fortis supports clients through every stage of their journey.

The mirrored structure creates **perfect symmetry and balance**, reflecting the core values of equality, fairness, and **stability in law**. The clean and balanced form also represents accuracy and trust, connecting both legal services and bookkeeping expertise.

Overall, the logo communicates guidance, balance, and reliability through a minimal and meaningful design.

Designed by Akila M.
